

1.

The screenshot displays the Power Query Editor window titled "assignment - Power Query Editor". The ribbon includes tabs for File, Home, Transform, Add Column, View, Tools, and Help. The main area shows a table with the following data:

	ProductCategoryKey	CategoryName
1	1	Bikes
2	2	Components
3	3	Clothing
4	4	Accessories

A context menu is open over the "AW_Product_Categories" query in the Queries list on the left. The menu options include Copy, Paste, Delete, Rename, **Enable load**, **Include in report refresh**, Duplicate, Reference, Move To Group, Move Up, Move Down, Create Function..., Convert To Parameter, Advanced Editor, and Properties... The "Enable load" and "Include in report refresh" options are highlighted with a red dashed box.

The Query Settings pane on the right shows the "APPLIED STEPS" list with the following steps:

- Source
- Promoted Headers
- Changed Type**

The "Changed Type" step is highlighted with a red dashed box. The status bar at the bottom indicates "2 COLUMNS, 4 ROWS" and "PREVIEW DOWNLOADED AT 02:07 PM". The taskbar at the bottom shows various application icons and the system clock displays "2:12:35 PM" on "28/12/2021".
